At War With Time: Western Thought from The Sages to the 21st Century

Craig Eisendrath

At War With Time: Western Thought from The Sages to the 21st Century Craig Eisendrath

In this unique history of Western philosophy, an award-winning historian revisits the milestones of Western religion to propose new ways to find meaning and philosophical guidance in a "world beyond permanence." Going back to the roots of Judaism and Christianity, author Craig Eisendrath shows human history as a desperate attempt to deal with change by cultivating notions of permanence-such as the belief in an eternal God and soul, a meaningful history, and fixed laws of nature. Eisendrath shows how recent developments in science and society have attacked these notions-and how a new philosophy of impermanence is well under way. Next, he identifies a new paradigm of Western thinking that supports a life of activism and responsibility, rather than belief in eternal life-offering a refreshing advocacy of hope and action in an intellectual climate rife with decline and lethargy. Written by one of the leading thinkers in today's public policy and philosophy circles, *At War with Time* will become a must-read for anyone with an interest in the future role of Western culture, religion, and identity.
