Texts: Contemporary Cultural Texts and Critical Approaches

Being able to analyse different types of text is an essential skill for students of literature. Texts is a new kind of book which shows students how to use literary theory to approach a wide range of literary, cultural and media texts of the kind studied on today's courses. These texts range from short stories, autobiographies, political speeches, websites and lyrics to films such as *The Matrix* and *Harry Potter* and from television's *Big Brother* to shopping malls, celebrities, and rock videos. Each chapter combines an introduction to the text and aspects of its critical reception with an analysis using one of sixteen key approaches, from established angles like feminism, postcolonial studies and deconstruction to newer areas such as ecocriticism, trauma theory, and ethical criticism. Each chapter also indicates alternative ways of reading the text by drawing on other critical approaches.
