Are nursing theories relevant in today's modern world? Many theories are decades old or more and often do not reflect the current trends in nursing practice. This report explores modern nursing and nursing theories in general and how they may be applied to current practice. In order to fully understand nursing we argue that Patricia Benner and her theory of novice to expert is the only popular nurse practice theory to apply to practice. With example of current practice this report outlines Benner novice to expert in a way that can be easily understood and applied to practice.
