## **Everything You Need to Know About Crystal Magic, from Best Selling Wicca Author Lisa Chamberlain**

Do you want to enhance your life by using magic to tap into the unbound power of the Universe? If so, you're in the right place.

Since the beginning of recorded history, people have delighted in the beauty of naturally occurring crystals found deep in the Earth. The ancient peoples of Egypt, Greece, Rome, China, Japan, India, and South and Central America used crystals not just in amulets and other jewelry, but also in religious art, weaponry, and healing.

Over the past several decades, the popularity of crystals in healing and the magical arts has seen a resurgence. This is especially true in Wiccan circles, with practitioners benefiting from the energetic power of crystals and stones during spellwork.

This book is suitable for Wiccans, Witches, and anyone else who wants to learn more about magic.

## **The Magic of Crystals**

Generally found inside larger masses of rock under the Earth's surface, crystals and other mineral stones are used in magic for everything from protection to divination to manifesting wealth and love.

Crystals work on the physical, emotional, and spiritual planes to effect positive change, rather than conventional medicine with its focus on the physical plane alone, so they are considered to be more holistic in their transformative effects than, say, an aspirin taken for a headache. There is a wide variety of information available about the healing powers of crystals, for physical and spiritual imbalances of all kinds.

For example, chakra balancing is one major use for crystals, and some practitioners of Reiki, acupuncture, color therapy, and other energy healing techniques incorporate crystals into their work.

Wiccans use crystals in a multitude of ways: we decorate our wands and pentacles with crystals; we use them to honor deities; we use them in amulets, talismans, and other 'good luck' charms.

Not forgetting the main purpose of this very guide: crystals and stones are a powerful component of

spellwork.
