Patrick Mattson's Air Traffic Control Career Prep introduces this rewarding career and is designed to help readers improve their chances of earning a high score on the FAA's Air Traffic Selection and Training Aptitude test (known as the "AT-SAT")-and therefore become candidates for air traffic control (ATC) positions. With general information on opportunities, working conditions, training and qualification requirements, available roles and positions, pay and benefits, and contact phone numbers to get started, this book and companion software includes more career guidance, and employment and training information than any other available guide-the only one of its kind.

The software includes AT-SAT test simulation exercises, as well as sample questions and answers to help readers grasp the topics covered.
