## Inspection Authorization Test Prep

The Inspection Authorization Test Prep provides Aviation Maintenance Technicians (AMTs) with all the resources needed to pass the FAA's exam for inspection authorization, and helps candidates become familiar with the privileges and limitations of the highest level of maintenance certification. This book is an important reference source for all AMTs seeking to add Inspection Authorization (IA) to his or her qualifications, as well as AMT schools preparing students for the IA test. All Inspection Authorization candidates must take and pass the FAA's IA Knowledge Exam. The IA exam is different from other FAA exams in that it remains a "closed test"- the exact database of questions is not available to the public-which makes the IA Test Prep a great way to prepare for this exam. The more than 450 sample questions typify those that candidates are likely to encounter when taking the IA Exam. The questions and answer choices are supported with explanations, and the FAA references from which the questions are derived are identified for students who wish to study them further. Also features an internet element that provides readers with additional tools and resources (see link below). The IA Test Prep conveniently compiles the reference materials necessary to prepare for this exam into one volume, for an organized study program that AMT schools, instructors, and individuals alike can use to streamline their studies. Softcover, 8-1/2 x 10-3/4 format, illustrated, 736 pages.
