Listen is a book where characters ask readers to do just that: listen to their stories, especially because many aren't the type of people who often get listened to—even though they should. These characters' trials, missed connections, and sundry challenges are full of surprises—some good, some bad, some funny, some wise, and some all this at once. Perhaps most surprising of all, there's tenderness here and a lot of heart—which often gets the collection's characters into a lot of trouble.
