## African Sexualities: A Reader

A groundbreaking book, accessible but scholarly, by African activists. It uses research, life stories, and artistic expression—including essays, case studies, poetry, news clips, songs, fiction, memoirs, letters, interviews, short film scripts, and photographs—to examine dominant and deviant sexualities and investigate the intersections between sex, power, masculinities, and femininities. It also opens a space, particularly for young people, to think about African sexualities in different ways.
