Nic Granger didn't plan to save the world. He just wanted to play The Three Kings of Orr online and defeat the Deceiver. The Deceiver had other ideas. As the land of Orr's nastiest villain, he had escaped into the real world some weeks before when the man who invented inter reality chips actually made one work.

When Nic finds himself in Orr, an amazing journey begins through time, space, the Internet and the world of his own street. With the help his best friend Frog, younger sister Emily, the knight Riddith and Princess Rhea, The Net Warriors are born. They are joined by a host of other characters including Bruce, a dragon with appallingly smelly breath and Prefix, a mace with the character of a playful puppy. As for the hackers, who is black hat and who is white?

Follow their adventures to the End of Time as they are captured by the Hellriders, battle with the headless horsemen, and try to find the Deceiver before he finds them. Can they put the worlds of reality and inter-reality back to how they should be?
