Elementary Algebra, 2nd Edition (Book & CD-ROM)

Michael Sullivan III, Katherine R. Struve, Janet Mazzarella

Elementary Algebra, 2nd Edition (Book & CD-ROM) Michael Sullivan III, Katherine R. Struve, Janet Mazzarella

The **Sullivan/Struve/Mazzarella Algebra Series** was written to motivate students to “do the math” outside of the classroom through a design and organization that models what you do inside the classroom. The left-to-right annotations in the examples provide a teacher’s voice through every step of the problem-solving process. The Sullivan exercise sets, which begin with Quick Checks to reinforce each example, present problem types of every possible derivation with a gradual increase in difficulty level. The new “Do the Math” Workbook acts as a companion to the text and to MyMathLab® by providing short warm-up exercises, guided practice examples, and additional “Do the Math” practice exercises for every section of the text.

Operations on Real Numbers and Algebraic Expressions; Equations and Inequalities in One Variable; Introduction to Graphing and Equations of Lines; Systems of Linear Equations and Inequalities; Exponents and Polynomials; Factoring Polynomials; Rational Expressions and Equations; Roots and Radicals; Quadratic Equations; Graphs of Quadratic Equations in Two Variables and an Introduction to Functions

For all readers interested in beginning algebra.
